Duel Duo's Bug Report

Description:

The users score only provides the number of losses in the LOSSES SCORE, despite winning a duel.

Steps to reproduce:

1. Go to http://locallhost:4000
2. Select "Autobots Roll Out."
3. Select two bots to battle and press "Add to Duo" on each.
4. Select Duel.
5. View the results of the bots dueling match.
6. Repeat the function till the user has won a match.
7. View Losses.
8. Score is now recorded.

Expected results: Expected my win and loses to be recorded correctly.

Actual result: After having the two bots duel, I was expecting for the win column to tally a win but as a result, all the games resulted in a loss even after it states that I have won a match. All games resulted in a losing record.

Environment: Chrome: Version 110.0.5481.100 (Official Build) (x86_64)

Wins: 0

Losses: 3

You *won*!

Play again!

Attack 1: 30 damage

Attack 2: 15 damage

Computer Duo

Mechi

Health: 80

Attack 1: 25 damage

Attack 2: 25 damage

Prime Information Drone

Health: 80

Attack 1: 25 damage

Attack 2: 25 damage

Scoreboard Test Case

I am testing to see if the scoreboard is working properly.

Steps: On the Duel Duo page, the win column has 0 and the losses column has 0.

1. Select "Autobots Roll Out"

2. Select two of the robots!

3. Press "Add to Duo" for both robots.

4. Select "Duel!"

5. Results will appear.

6. Compare the duel results.

Test Post Conditions: The results of all matches were correctly tallied in the win and lose records.

Duel Duo Test Plan

Overview: We are testing the functionality of the game making sure every button and record is fulfilled for the game.

Test Criteria:

1. Tested the "See All Bots" button shows all the robots.

2. Tested the "Autobots Roll Out" button to show all five robots.

3. Tested the "Add to Duo" button to select two robots to duel.

4. Tested the error functionality if the user selects more than two bots to duel.

5. Tested the "Duel" button.

6. Recorded every match taken place in the win and lose column.

Entry Criteria: Test criteria provided.

Exit Criteria: All priority test has passed.

Conclusion:

All test have passed on the Duel Duo page and bug reports are completed.
